### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chun Ng on August 18, 2008.

The application has been amended as follows:

In claim 24, line 1, replace "23" with -19--.

In claim 25, line 1, delete "or 23".

### ***Allowable Subject Matter***

Claims 19, 20, 22, 24-26, 28 and 29 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the inclusion of the limitations of an image processor for constructing values of spectral emission characteristics of individual plasmon resonant entities (PREs) and a computer image of the position and values of signature spectral emission characteristics of individual PREs and other light scattering entities, and a discriminator means for discriminating individual PREs with a selected signature spectral characteristic from other light-emitting entities in the

computer image. It is these limitations, as found in combination in the claims, that have not been found, taught or suggested by the prior art of record, which makes the claims allowable over the prior art. (As to the Hillner et al. reference, it appears to only disclose particles, e.g. silver or gold particles, to enhance electric fields in their vicinity and thus enhance fluorescence, but it is not taught that the particles themselves have a spectral characteristic that is detected. Therefore, there is no teaching, nor motivation or suggestion, to provide an image processor and discriminator means as recited by Applicant.)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ANN Y. LAM whose telephone number is (571)272-0822. The examiner can normally be reached on Mon.-Fri. 10-6:30.
